FIRST ORDER OF BUSINESS—THE FIRST order of business for the Miss America contenders after their arrival in Atlantic City, N. J., was to pose in their swimsuits on the boardwalk. — NEA Telephoto

ICC Gives Okay to Red River Barge Service

WASHINGTON, D.C. — An application to run a jet-propelled barge line on Red River between New Orleans and Denison, Tex., was approved Tuesday by the Interstate Commerce Commission.

Burney Holland, president of Heart of Texas Transportation Co., said in Ft. Worth that he plans to go into operation within 60 days of receiving formal notice of approval.

Shreveport will be headquarters of the service with the firm's marine operations based here and trucking operations headquartered in Fort Worth.

The number of barges to be used will be dictated by the demand, Holland said. A tugboat service on the Red River connecting with the Gulf of Mexico has long been a dream of leaders in this area. The Red was a key artery in pioneer days.

The ICC authorized the Texas firm to operate a 930 mile barge service between New Orleans and Denison. The secret to the specially equipped tugboat is a hydro-jet which forces water out of a nozzle at the rate of 3,000 gallons a minute and the water jet has a digging effect on the type of line sand found in the Red River bottom and by repeated travel tends to deepen the river channel.

Railroads and established water carriers opposed Heart of Texas saying there was no public need. The Texas firm contended it could barge freight up and down the river at a much cheaper rate than now exists.

Fulton, Ark., in Hempstead county, will be one of a series of ports up and down the river.

Brother of Hope Woman Succumbs

Harvey Fulmer, aged 72, resident of Ft. Worth, Texas, died in a veterans hospital in Dallas early today.

He is survived by his wife, Myrtle of Ft. Worth, one son, Thomas of Ft. Worth, a daughter, Mrs. Dorothy Ann Stewart, Corpus Christi, one sister, Mrs. H. Bumpus of Hope and two brothers, Frank of Saline, Tex. and Rowland of Memphis, Tex.

Funeral services will be at 10:30 Friday morning at Herndon-Cornelius Chapel. Burial will be in Memory Gardens with Herndon-Cornelius in charge.

Weather

Experiment Station report for 24-hours ending at 6 p. m. Tuesday, High 93, Low 70; Trace of precipitation; Total 1961 precipitation through August, 29.41 inches; during the same period a year ago, 29.98 inches.

Ark regional forecast by THE ASSOCIATED PRESS

All sections: Partly cloudy and warm this afternoon, tonight and Thursday with a chance of scattered afternoon or evening showers. Highs today low to mid 90s central and southwest, mid 90s southeast, low 90s northeast, mid 90s to 90s northwest. Lows tonight low 70s central, low to mid 70s southeast and southwest, high 60s to low 70s northeast, mid to high 60s northwest.

ARKANSAS: Partly cloudy to cloudy this afternoon tonight and Thursday. Continued on Page Two

New Kiwanis Club Officers

DR. JIM MCKENZIE, PHYSICIAN AND SURGEON, HAS been elected president of Hope Kiwanis club for the new year. He is shown in center of photograph. OTHER OFFICERS ELECTED INCLUDE: EDDIE WHITMAN, vice-president, far left; J. W. Franks, treasurer; Dean Murphy, second vice-president; and Teddy Jones, extreme right, secretary.

School Aid Bill Likely to Pass

By GOFFREY GOULD

WASHINGTON (AP) — Extensions of two popular school aid programs are expected to whip through the House today. They are the only parts of the Kennedy administration's school program that command conservative support.

Their expected passage cannot be considered a compromise by the administration. Instead it represents one of President Kennedy's worst defeats at the hands of Congress this year.

The two school programs are extension of a \$300 million a year program of grants to districts with a high percentage of federal employees, called the impacted areas program. The other is extension of the National Defense Education Act, which aims at strengthening teaching of mathematics, languages and science in response to the Russian challenge in space exploration.

These programs were wrapped into the administration's ambitious federal aid to education package in an effort to win votes for more controversial parts, such as federal grants for public school construction and teachers' salaries.

But the conservative House coalition of Republicans and Southern Democrats rose up in strength last week to defeat the last cut down compromise of the administration program by a 242-169 vote.

In the face of this defeat, House Democratic leaders agreed to bring in new bills extending impacted areas aid and the NDEA and nothing else.

The Senate may act on the two extensions Thursday.

C. C. Mackey of Oakhaven Dies

C. C. Mackey, aged 76, a resident of Oakhaven, died today in a local rest home. He formerly lived in Delight.

Survivors include three sons, J. M. of Klamath Falls, Ore., Carl of Texarkana and Charles Mackey of Hot Springs; two daughters, Mrs. Otis Gray and Miss Geneva Mackey of Oakhaven.

Funeral arrangements will be announced by Herndon-Cornelius.

Fears Power of Large Food Chains

By GOFFREY GOULD

WASHINGTON (AP) — Concentration of power in large food chains is depressing producer prices, especially in the broiler industry, Rep. Jamie L. Whitten, D-Miss., said Tuesday in calling for a probe of food distribution.

Whitten, chairman of the House Appropriations Sub-committee which handles money for the Agriculture Department, said poultry producers are at the mercy of a few men who set the purchase price for broilers. Many producers he said, are virtually bankrupt.

Whitten called for an investigation to:

1. Determine if any Agriculture Department laws are being violated and if the department can regulate large food chains.
2. Determine whether food chain buying should be subject to the same regulations as the buying of futures in the stock market.

He also proposed a fact-finding study by the House Appropriations Committee.

Whitten said he would take up the matter of such investigations when he meets Sept. 11 with Secretary of Agriculture Orville L. Freeman and other department officials.

Man Cleared of Homicide Charge

LITTLE ROCK (AP) — Robert W. Thomas, 40, of Memphis was cleared Tuesday of a negligent homicide charge filed in the traffic deaths of two children here Aug. 3.

Traffic Judge John L. Sullivan said after clearing Thomas that the city and state should make Asher Avenue, where Thomas' car struck the two children, safer for pedestrians and vehicular traffic.

Killed when struck by Thomas' car were Gerald Austin Prince, 9, and his sister, Lorretta Jo, 6.

Sonic Booms Tonight

DALLAS, Tex. (AP) — Residents of some sections of Arkansas can expect to hear sonic booms tonight. The Air Force said two supersonic B-58 jet bombers will be on training flights in the aerial corridor between Little Rock and St. Louis between 8:55 p. m. and 9:41 p. m.

Auto Workers Delay Strike, Peace Near

By THE ASSOCIATED PRESS

DETROIT (AP) — The United Auto Workers called off a strike set for 10 a. m. today at General Motors plants after a new offer by the company appeared to have cleared the way for a settlement of the union's key benefit demands.

Beaming with pleasure, UAW President Walter P. Reuther announced nearly seven hours before the strike deadline that it had been extended until 10 a. m. Monday. He said substantial progress was made during the night on broad economic issues.

Reuther joined with GM Vice President Louis G. Seaton in announcing a second extension of the old contract "in the light of significant progress made at the bargaining table during the night."

The 1958 contract expired Aug. 31 but was extended until today under a truce suggested by the U.S. Mediation Service.

Before going into their night session, UAW and GM negotiators were urged in telegrams from President Kennedy to make "an all-out effort to achieve a just settlement." Mr. Kennedy told Reuther and Seaton "our country at this juncture in our affairs can ill afford a shutdown in this important segment of our economy."

Seaton said the extension until Washington but "was agreed upon in the bargaining room."

Reuther said the President's message obviously had an effect on negotiations. He told newsmen "We had been working very hard before we received it; we were a little more conscious of our responsibilities afterward."

Reuther declared the night session made "real progress toward meeting the needs of GM workers."

Reuther Tuesday declared there would be no extension of the strike deadline unless GM agreed to give the same benefits provided in the recent settlement with American Motors Corp.

Reuther dropped a demand for the AMC profit-sharing plan.

The UAW chief was grimly militant Tuesday but today he told reporters he felt "very good, in fact delighted" over the company's concessions.

Brazil Trying to Form a Government

By ROBERT BERRELLE

BRASILIA, Brazil (AP) — Vice President Joao Goulart began talks today with a wide range of political leaders to organize a new government for Brazil. Some were reported urging a coalition regime to give a voice to all parties.

Although the date for his inauguration as a figurehead president was not yet fixed, Goulart landed Tuesday night at Brazil's modern capital in the interior after his personal safety had been assured and military chiefs dropped their active opposition.

Goulart, assailed by military leaders as a dangerous leftist, is to take over the position but not the power relinquished by Janio Quadros, who resigned as president Aug. 25.

Quadros' resignation caught Goulart on his way home from a visit to Communist China, and the heads of the army, navy and air force said they would not let him return to the presidency. Civil war threatened between pro-Goulart troops and civilians in south Brazil and the rest of the nation's armed forces, but the military chiefs gave way after congress transferred most of the presidential powers to a premier responsible to Congress.

Goulart's major function as president will be to pick the premier, who then must be approved by Congress.

Arriving from Porto Alegre, capital of his home state of Rio Grande do Sul in the south, Goulart praised the new parliamentary system. "I think it will calm people and pave the way for the establishment of an ideal regime," he told newsmen.

After a warm welcome at the airport from almost every civilian dignitary in the capital—the military leaders had quietly left town—Goulart drove to a farm he owns 36 miles from Brasilia.

President Lifts Ban, U. S. Plans Nuclear Tests

By LEWIS GULICK

WASHINGTON (AP) — Lifting its three year lid on atomic tests the United States will set off underground nuclear explosions in the next few weeks to develop more advanced weapons.

"We have no other choice," President Kennedy announced Tuesday after getting word of the Soviet Union's third atomic blast in five days.

The American tests will start this month. Authorities indicated the first explosions will be small by atomic standards.

The aim: (1) to improve battlefield arms like those now in the hands of U.S. troops in Europe and (2) to gain know how for anti-missile rockets.

Because they will be below ground and in laboratories the U. S. tests will not produce the fallout of radioactive air particles potentially dangerous to all life.

Kennedy still held open last Sunday's U.S.-British offer to Moscow to sign a pact by Sept. 9 outlawing tests in the atmosphere.

John J. McCloy, the U. S. disarmament administrator, planned to meet in New York today with Valerian Zorin, Soviet ambassador to the United Nations, to resume talks on setting up a multinational disarmament conference.

Kennedy's announcement drew applause from Congress, where many members of both parties have been calling for a resumption of U. S. tests and dismay from non-Western foreign capitals, where the Soviets have been criticized for ending their atomic moratorium.

Disarm also was registered by Japan, target of America's World War II atomic bombing. Foreign Minister Centaro Kosaka strongly urged the United States not to carry out the tests. He said "we have long considered, from the humanitarian view, that the ban on nuclear weapon tests is the first step toward the abolition of nuclear weapons as a whole."

The President's decision, announced by White House press secretary Pierre Salinger late Tuesday, swept away a ban adopted by the United States when the U.S.-British-Soviet pact on a treaty to forbid nuclear testing began in November 1950.

Labor Day Deaths Amount to 386

CHICAGO (AP) — Traffic accidents during the long Labor Day weekend killed 386 persons, 34 below preholiday estimates, and the death rate was a record low for the holiday period.

The National Safety Council, which had estimated the death toll of 420, said some 16,000 persons suffered injuries during the 78-hour holiday period from 6 p. m. Friday to midnight Monday.

The traffic death toll compared with 415 for the Labor Day holiday last year and the record of 461 in 1951.

Based on deaths per 100 million miles of travel, it was the safest Labor Day holiday on record with 6.6 deaths in traffic. The old record was 8.1 set in 1954.

All Around Town

By The Star Staff

Recent personnel changes at Hope Hardware Co. weren't officially announced but Ray McDowd was named manager, replacing LaGrone Williams. The latest word is Mr. Williams will open his own hardware store soon. The location reportedly is next to Gibson's Drug Store on Elm Street.

Police Chief Jack Brown, back at work only a couple of days from a bout in the hospital, had to go back to the hospital yesterday.

Ozan Creek Conservation District will meet at McCaskill RCI building Friday, Sept. 8 at 7 p. m. Says Gordon Prescott, a local black and king snake. . . each about six inches long. . . isn't too unusual except the king snake had the black snake about halfway swallowed about 10 a. m. . . at 11:15 a. m. there was no sign of the black snake.

The Golden Age Club meets on Thursday at 2 o'clock at the Youth Center. . . games will be played and refreshments served.

Group Approves \$2.5 Million for Start of Millwood Dam Work

Nuclear War Means End of Humanity

STOWE, Vt. (AP) — An all-out nuclear war in the 20th century would mean the end of mankind as we know it by the 40th century, the president of the American Academy of Arts and Sciences says.

Dr. Hudson Hoagland, the academy president, told a news conference Tuesday that every one alive after such a war would have suffered genetic damage and in succeeding generations the whole character of man would change.

Hoagland was in Vermont for the seventh annual conference on science and world affairs—known in other years as the Pugwash Conference because it began at the Pugwash, N.S., home of Cleveland, Ohio, industrialist Cyrus Eaton.

The two-week meeting is being attended by 47 scientists from 12 nations, 13 of them from the Soviet Union.

Opening the conference Tuesday, Hoagland stressed the danger of genetic damage from a nuclear conflict.

"It is appalling to consider the arrogance and stupidity of any one generation of man who, for political differences, is prepared to destroy irreplaceable genetic material," he told the scientists.

Nuclear war is the ultimate horror, Dr. Hoagland said. The big contribution of meetings such as the one now going on is to gain time for the world to agree on ideological differences, he said.

Every day we stay alive is a gain, he told his news conference.

Loss of Sleep Wrecks a Man

WASHINGTON (AP) — Army scientists, solemnly investigating the effects of sleeplessness, have discovered what many GIs long have known — that a loss of sleep makes a wreck of a man.

Making public results of the study, the Army said scientists at the Walter Reed Army Institute of Research learned that: "Under prolonged sleep loss the nervous system begins to behave something like a motor in need of a tuneup. It alternatively misfires, runs normally for a while, and falters again."

"These misfirings include lapses in attention and fleeting visual illusions which make floors seem to tilt at a dangerous angle or roll like a wave."

No Conference

WASHINGTON (AP) — President Kennedy will not hold a news conference this week, Kennedy reportedly has been holding conferences every other week, but the White House said this did not represent a pattern. He met with newsmen last Wednesday.

—Photo by Henry Haynes

Mrs. Muri Fisk

Blevins, Guernsey and Spring Hill school districts have formed a compact for the employment of a vocational guidance counselor and have employed Mrs. Muri Fisk of Hope for the position.

Thus, the three rural Hempstead county schools, are the first in Arkansas to form such an agreement designed for the betterment of their students.

Mrs. Fisk outlined her work and responsibilities in a talk Tuesday before the Hope Kiwanis club in a program arranged by Elmer Brown.

Her work concerns each student, his problems, his capabilities, special talents, his educational and occupational plans and many other phases of school life.

Carla Loiters and May Hit Florida Coast

MIAMI, Fla. (AP) — Tropical storm Carla threatened today to lash western Cuba with hurricane force and sweep on toward Florida.

Aircraft were dispatched to check the fury and course of the storm which forecasters at Miami said probably reached hurricane strength during the night.

They estimated Carla at 8 a. m. was centered 550 miles southwest of Miami and 200 miles south of Cuba's western tip. "Top winds earlier were 70 miles per hour. Hurricane force is 70 m.p.h."

"Torrential rains and gales are expected over much of western Cuba today and tonight," the bulletin said. "Hurricane Winds are likely over extreme western Cuba tonight or Thursday."

Fringes of the storm probably will reach into the Florida keys and extreme south Florida with squalls Thursday, the advisory said.

Carla, bound west-northwest Tuesday, veered to a northerly route that missed the Yucatan peninsula and led toward the Yucatan channel between Yucatan and Cuba.

While Floridians and interests in the western Caribbean watched Carla's progress, Hurricane Betsy picked up intensity with winds up to 125 miles per hour but continued on a north-northwest course that would keep it well off the U. S. mainland.

Betsy was centered about 530 statute miles east of Bermuda and 1,600 miles east-northeast of Miami.

Bag Plant at Pine Bluff Sold

PINE BLUFF, Ark. (AP) — The Imperial Bag and Paper Co. of Pine Bluff has been sold to Georgia-Pacific Paper Co., a subsidiary of a major wood products company.

Purchase price was not revealed. Imperial, which began operations in April of 1953 with 14 employees, operates an 80,000-square foot plant with 75 to 100 employees. It makes kraft paper bags.

The sale includes a sales subsidiary of Imperial located in Chicago.

Gillham Dam, Red River Also Included

WASHINGTON (AP) — Funds for construction on three big reservoirs and other river projects in Arkansas were approved by the House Appropriations Committee today.

The money is contained in a public works appropriations bill. The measure provides \$9.5 million for Beaver Reservoir on White River, \$9 million for Dardanelle Dam on the Arkansas River and \$12.5 million for Greers Ferry Reservoir on the Little Red River. All are in various stages of construction now.

The bill also allocates \$15 million for bank stabilization work in the Arkansas River in Arkansas and Oklahoma and money for two more projects, \$2.5 million for Millwood dam and \$54,000 for Do Gray dam.

Another \$2.5 million is allocated for installation of three new power units at Bull Shoals Dam. The bill also provides \$300,000 for construction of Red River levees below Denison Dam in Arkansas, Louisiana and Texas.

The measure includes \$1,225,000 in planning funds for Arkansas River navigation locks and dams and \$250,000 in planning money for a 9 foot navigation channel on the Ouachita River in Arkansas and Louisiana.

Two other Arkansas River reservoir projects also get planning funds, \$120,000 for Gillham dam in Arkansas and \$125,000 for Ozark lock and dam in Arkansas.

Another \$55,000 in planning funds is allocated for Manica Bayou in southern Arkansas.

The committee allowed funds for two Army Engineer project surveys in Arkansas, \$35,000 for Buffalo River and \$25,000 for Water Valley Reservoir.

Arkansas also has a big share in the \$70,725,000 flood control program approved for the Lower Mississippi River.

The program includes \$1.3 million for the Roanoke and Tensas Rivers and \$25,000 for Red River backwater in the Tensas Basin in Arkansas and Louisiana; \$4,635,000 for work in the St. Francis Basin in Missouri and Arkansas; \$550,000 for the lower White River in Arkansas; \$530,000 for the Lower Arkansas River; \$2.5 million for levee construction and \$23 million for channel improvements.

All the Lower Mississippi money allocated to Arkansas is for construction.

"The overall program also provides funds for construction at Memphis and Greenville harbors and other work in Tennessee and Mississippi."

Commodities to 316,000 in State

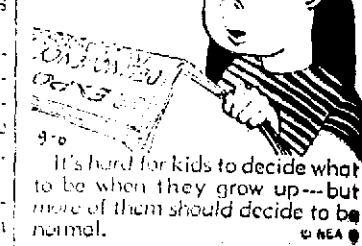

LITTLE ROCK (AP) — Surplus commodities worth \$1,270,322 were distributed to 316,000 persons by the State Welfare Department last month, Commissioner Carl Adams said Tuesday.

In August of last year, 217,400 persons divided surplus foods worth \$506,945.

"The quantity of the surplus items distributed in August was more than double that of August, 1960 — 4,361,345 pounds compared to 2,076,224 pounds."

Adams said an expansion of the distribution program was responsible for the increase in value of the goods and the number of persons who benefited.

Surplus commodities also were distributed to 1,010 schools, 71 institutions and 10 summer camps during August, Adams said.

Sees Better Times on Stock Market

By JACK LEFLER

AP Business News Writer

NEW YORK (AP)—With the La-
 bor Day milestone behind them,
 Wall Streeters foresee better times
 for business and the stock market.
 International tensions are failing
 to dampen their enthusiasm.

Major market influences, de-
 spite disturbing international pos-
 sibilities and the already high lev-
 el of stock prices, seem to justify
 a further advance before the end
 of the year and probably beyond,
 comments the brokerage firm, A.
 M. Kidder Co.

The rise of general business ac-
 tivity, with benefit of government
 spending, may well prove to be
 the most prolonged upswing of the
 post-war period, it adds.

The firm points out that the in-
 flationary possibilities inherent in
 expected large budget deficits
 should be apparent and that mon-
 ey is cheap and plentiful and
 probably will tighten more slowly
 than during recent cyclical reviv-
 als.

"These constructive factors
 should soften the effects of further
 shocks in the war of nerves over
 Berlin, especially since informed
 observers generally seem of the
 opinion that these will not lead to
 a shooting war and certainly not
 to a nuclear holocaust," Kidder
 says.

Shearson, Hammill Co. ob-
 serves that the prospective
 strength in such key industries as
 automobiles, chemicals, steel, ar-
 maments and residential building
 which appears likely for next year
 would mark one of the few times
 that these major segments of the
 economy have operated at a high
 level at the same time and should
 make 1962 a record-breaking year
 by all measures.

The higher volume in sight for
 next year should help widen profit
 margins significantly for many
 companies and corporate earnings
 should rise out of their six-year
 rut, it adds.

Grant to Kensett

WASHINGTON (AP)—The
 Community Facilities Administra-
 tion granted Kensett, Ark., a
 \$2,200 improvement loan Tuesday.

The federal agency said the money
 will be used for preliminary
 planning of water and sewage
 facilities.

President Lifts

Continued From Page One

The last U. S. test was Oct. 30,
 1958, in Nevada.

The Soviets and British also de-
 clared self-imposed moratoriums
 in 1958. Some military men in all
 three countries pressed increas-
 ingly for tests. This year the So-
 viets showed declining interest in
 the Geneva talks and last
 Wednesday announced they would
 resume tests. The British have
 not resumed.

Kennedy said Tuesday:
 "In view of the continued test-
 ing by the Soviet government, I
 have today ordered the resump-
 tion of nuclear tests in the labo-
 ratory and underground with no
 fallout.

"In our effort to achieve an end
 to nuclear testing, we have taken
 every step that reasonable men
 could justify.

"In view of the acts of the So-
 viet government, we must now
 take those steps which prudent
 men find essential.

"We have no other choice in
 fulfillment of the responsibilities
 of the U. S. government to its
 own citizens and to the security of
 other free nations."

Foreign Aid Fight Shifts to Senate

WASHINGTON (AP)—After re-
 gaining some lost ground in the
 House, the administration today
 shifted to the Senate its drive for
 foreign aid appropriations.

The bill finally passed by the
 House Tuesday night totaled
 \$3,657,500,020. This was \$596 mil-
 lion less than Congress authorized
 in the enabling act signed by
 President Kennedy over the week-
 end, but \$300 million more than
 was recommended by the House
 Appropriations Committee.

With a strong shove from the
 moderate Republicans, the House
 restored three-fourths of the \$400-
 million committee slash in mili-
 tary assistance funds. Other at-
 tempts to restore committee cuts
 were voted down.

The Senate Appropriations Com-

Court to Rule on Contempt Conviction

JASPER, Ark. (AP)—The Ar-
 kansas Supreme Court will be
 asked to rule on the contempt of
 court conviction of J. L. Tupy, chair-
 man of the Newton County Citizens
 Committee, received in Circuit
 Court Tuesday.

Tupy was fined \$25 and given
 a suspended 10-day sentence by
 Judge Woody Murray in connec-
 tion with a pamphlet distributed
 by the committee to voters in the
 county.

Arnold Adams, Tupy's attorney,
 said the case would be taken to
 the high court and Tupy posted
 \$250 appeal bond.

Adams said Tupy denied that
 he had intended to impugn the
 integrity of Circuit Court and
 said statements in the pamphlet
 reflected the "honest opinion" of
 Tupy and committee members.

The pamphlet was entitled "In-
 side Information About Wrong
 Doings of Election Commissioners
 and County Judge of Newton
 County, Arkansas."

Prov. Atty. Joe D. Villines
 said the booklet was published
 "for publicity and to disrupt tran-
 quility here."

The pamphlet was an attack on
 the integrity of the court, Villines
 said. "He (Tupy) needs to learn
 the respect of this court."

China Makes Loan

KATMANDU, Nepal (AP)—Red
 China has agreed to provide
 Nepal with credits totaling \$2.1
 million for development projects,
 the government said.

Committee was to wind up hearings
 on its version of the money bill today
 with testimony by non-govern-
 mental witnesses.

Senate Democratic Leader Mike
 Mansfield of Montana said he
 thought the Senate would restore
 most of the House cuts.

The Senate committee won't
 vote on the bill until next week,
 probably on Wednesday. Restora-
 tion of all or part of the House
 reductions would send the bill to
 a conference.

Atmospheric Tests Up to Russia

By JACK BELL

WASHINGTON (AP)—The pos-
 sibility that the United States will
 have to resume atmospheric nu-
 clear tests if the Soviets continue
 such shots was voiced today by
 influential members of Congress.
 Senate Republican Leader Ever-
 ett M. Dirksen of Illinois said
 President Kennedy's order Tues-
 day for resumption of under-
 ground explosions "doesn't mean
 that we won't have to test in the
 air later."

Dirksen was one of the congres-
 sional leaders of both parties
 Kennedy informed of his decision
 before the White House an-
 nounced it.

SOCIETY

Phone 7-9451 Between 9 A. M. and 4 P. M.

Calendar

Thursday, Sept. 7
 Hope Chapter 328 Order Eastern Star will meet at the Masonic Temple Thursday night, Sept. 7 at 8 p.m.

The Gardenia Garden Club will meet in the home of Mrs. Jim James with Mrs. Fred Mathenia as co-hostess Thursday, Sept. 7, at 2 p.m.

The Thimble Club will meet at 1:30 p.m. Thursday, Sept. 7 in the home of Mrs. Olin Puntell. Please note the change of meeting places.

Friday, Sept. 8

The Hope Council of Garden Clubs will meet at 9:30 a.m. on Friday, Sept. 8 in the home of Mrs. Harold Brents at Oakhaven. The president, Mrs. J. S. Gibson, urges all members to attend.

The executive meeting of the Paisley PTA will be held Friday, Sept. 8 at 2 p.m. at the school. All officers and committee chairmen are urged to be present and help plan activities for the new school year.

Tuesday, Sept. 11

The WSCS Circle 4 will not meet Tuesday, Sept. 5, but will have a business meeting Sept. 11 following the regular church meeting.

Wednesday, Sept. 13

The John Cain Chapter, Daughters of the American Revolution, will hold a special business meeting on Wednesday, Sept. 13, at the Diamond at 12:30 p.m. The year's program will be reviewed by Mrs. George Peck, vice regent and program chairman, and Mrs. Arthur Wimmell, regent, will report on the state board meeting she will attend Sept. 8 in Little Rock. Members will choose their luncheon from the cafeteria line at \$1.25 each. The executive board and committee chairman are especially urged to be present.

Miss Myrtle Joyce O'Steen Weds Robert Whitton

On Friday, Aug. 26 at 9 p.m. in Meadowbrook Baptist Church of Irving, Texas, Miss Myrtle Joyce O'Steen, formerly of Hope, became the bride of Robert Lionel Whitton of Irving. She is the daughter of Mr. and Mrs. Carl O'Steen and the groom's parents are Mr. and Mrs. C. L. Whitton of Dallas.

Miss Anna Jean Wyatt, organist played selections of nuptial music as the candles were lighted by Charles and Danny O'Steen, nephews of the bride. Mrs. Perry Reeder sang "Because" accompanied by the organist.

The bride, entering on the arm of her father, was attired in a waltz-length gown of white silk tulle, highlighted with chantilly lace. A portrait neckline was outlined with scallops and the lace sleeves came to a point at the fingertips. The bride's veil was held by a pearl crown. The bride carried a cascade bouquet of white carnations and stephanotis atop a white bible.

Mrs. Jack Hart attended her sister as matron of honor. Fred Bartel of Dallas served as best man. Ushers were Darrell and Percy O'Steen, brothers of the bride.

Vows were exchanged before a white wedding arch garlanded with jade fern and tiny white carnations. Seven branched candelabra and baskets of white carnations were also used. At the conclusion of the ceremony the couple knelt as the pastor repeated the "Lord's Prayer."

Immediately following the ceremony a reception was held at the church. The room was decorated in the bridal colors of green and white. Mrs. Neah Langley, sister of the bride, presided at the guest book. The three-tiered wedding cake topped with a miniature bride and groom was served by Miss Barbara O'Steen and the punch was served by Miss Marietta Langley, both nieces of the bride.

For travel the bride chose a dress of pink silk and tulle with white accessories. After a brief wedding trip the couple is at home in Irving, Texas.

Coming and Going

Mr. and Mrs. Raymond Barber of El Dorado are visiting Mr. and Mrs. T. R. Gibson at Patmos.

Kenneth Wayne Gibson has returned home to Little Rock after spending the weekend with Mr. and Mrs. T. R. Gibson of Patmos.

Highlights in History of Today

By THE ASSOCIATED PRESS

Today's highlight in history: On this day in 1696, Capt. William Kidd and a crew of 153 sailed from New York in a privateer against the French and against pirates in the Indian Ocean. Certain noblemen of the English ministry invested in the undertaking. Kidd and Robert Livingston of New York were to receive one-fifth of the proceeds.

On this date—In 1620, the Pilgrims sailed from Plymouth, England, on the Mayflower.

In 1766, the English chemist who formulated the atomic theory—John Dalton—was born.

In 1886, Queen Victoria of England instituted the Distinguished Service Order.

In 1940, King Carol of Romania abdicated in favor of his son, Prince Michael.

In 1954, President Eisenhower presided at ground-breaking ceremonies for the first commercial atomic energy plant at Shippensburg, Pa.

Ten years ago . . . Gen. Douglas MacArthur accused the Truman administration of arousing what he called a "frenzy of fear" to make up for post-war disarmament in reckless haste.

Five years ago . . . The British parliament was recalled for debate on Prime Minister Anthony Eden's Suez policy.

One year ago . . . U.S. Undersecretary of State C. Douglas Dillon presented to the conference at Bogota a U.S. plan for establishment of an inter-American program of social development.

Weapons to Be First U.S. Tests

By FRED S. HOFFMAN
 WASHINGTON, AP1—Relatively small bang warheads for battlefield nuclear weapons may be the first tested under President Kennedy's go-ahead orders.

The Defense Department and Atomic Energy Commission were silent on test plans.

But military officials suggested today that tactical nuclear weapons ranging from the explosive equivalent of 100 tons of TNT to 20,000 tons of TNT soon may be tried underground in Nevada.

Among these are warheads for bombardment rockets like the Honest John, Little John, La Crosse, Corporal and Sergeant, the Davy Crockett bazooka-like weapon and a nuclear shell for the eight-inch howitzer.

American forces facing the Soviets in Europe are armed with the 75-mile range Corporal and the 12-mile range Honest John, among others. Many of the growing failings of U.S. battlefield atomic weapons have become operational since the test moratorium went into effect nearly three years ago.

Sources said military experts know what these low-yield weapons can do, profiting from general nuclear experimentation before the suspension set in and relying on paper calculations. U.S. scientists have tested below ground nuclear devices up to 20,000 tons in TNT equivalent.

There was obvious value in actually testing the warheads themselves. Certain quarters in the Pentagon long have contended the United States should resume testing. They argued this was needed for development of new weapons in a time of rapidly changing technology and to stay

DOROTHY DIX

Teens Take Warning

By HELEN WORDEN ERSKIN

Dear Helen: I hope that you will print this so young readers may heed my warning. My husband and I are married five years, have three wonderful children and love each other very much but, there is something we shall never forget and that is the day we had to get married. My boy friend insisted that there was no wrong in making love when two people loved as much as we did. He was persuasive and I willing.

Now we both wish we had waited. Love such as ours is for marriage alone. When I became pregnant before our marriage he feared our first child was not his, wrongly reasoning that if I could give into him, I would do the same with someone else. He knows now, beyond a doubt, that I was true for our baby is the living image of him. But, stolen love is not worth all the heartache, believe me. Tell the young girls who write you, and read your column, to save their love for the day they marry. —Shotgun Wife.

Dear Shotgun Wife: I hope your young readers will take warning. However, it is the parents and not the children who are to blame in the last analysis. Only the other day I listened in shocked silence to a mother blacken her teen-age daughter's reputation. The more she said the more apparent it became that she, not the girl, was to blame. A child learns by imitating those to whom they are closest — namely, their mother. Women either do, or don't, possess the art of being a mother. This woman didn't. Before you condemn the child, check up on the parents, especially the mother.

Dear Helen: We are going on a vacation. A bossy relative who lives in the town we are to visit plans to return with us. I learned this only yesterday, through another member of the family and it distresses me no end.

How can we tell this well-meaning but mistaken relative that our vacation is only a vacation if we can be alone? My husband feels that for the sake of peace in the family we should let this relative come along. I don't. What do you think? —Mrs. M.

Dear Mrs. M.: One either takes charge or is taken charge of in this life. Tell the helpful Hannah politely but firmly that two's company and three's a crowd.

Dear Helen: I went to a carnival and met a boy who runs the merry-go-round. His mother works in the carnival, his father is an electrician.

My Dad doesn't approve of the boy or his surroundings. He is respected in this community and belongs to 10 clubs and feels that for his daughter to go with a carnival boy would ruin his reputation. Mom says you can't pin your faith to a boy like that, I like him and he likes me.

It isn't his fault that he's a car-

25 Nations End Meet With Appeal

By EUGENE LEVIN

BELGRADE (AP)—The conference of 25 nonaligned nations ended today with an appeal to the United States and the Soviet Union to halt "war preparations" and start negotiations at once to head off nuclear destruction.

A communique summing up the five-day parley was unanimously approved at a windup meeting that ran until 1 a.m. Besides calling for peace, it dealt chiefly with colonialism and—

1. Declared the U.S. naval base at Guantanamo Bay "affects the sovereignty and integrity of Cuba."

2. Called Algerian rebel claims to French-held Sahara Desert territory "just and necessary" and offered to aid the Algerians in their struggle with France.

3. Demanded immediate evacuation of French armed forces from Tunisian soil.

4. Demanded immediate freedom for Portugal's strife-torn Af-

rican colony of Angola.

Nothing was said about Soviet domination of Eastern Europe, Chinese Communist occupation of Tibet or India's refusal to permit a plebiscite in Moslem Kashmir.

Indian Prime Minister Nehru left for Moscow today on a visit he had scheduled before the Belgrade conference, but Indian diplomats said their leader would carry to Soviet Premier Khrushchev the conference's appeal that he meet urgently with President Kennedy. Conference sources said earlier that Nehru would also urge Khrushchev to agree to the U.S.-British proposal for a moratorium on nuclear weapon tests in the atmosphere.

Indonesian President Sukarno and President Modibo Keita of Mali were delegated to deliver the appeal to President Kennedy in Washington Sept. 12.

Never before, said the conference appeal, has the world been threatened with so "ominous a prospect" of conflict, a war that would "inevitably lead to devastation on a scale hitherto unknown, if not to world annihilation."

It called on the United States and the Soviet Union to "resume negotiations for a peaceful settlement of any outstanding differ-

Will Measure Farm Acreage

LITTLE ROCK (AP)—Officials of the Agricultural Stabilization and Conservation Service (ASCS) were to measure today the number of acres James Weir has planted in rice at his Dermott farm.

U.S. District Judge Gordon E. Young refused Tuesday to stay a preliminary injunction directing Weir not to keep ASCS employees from entering his land. Young issued the injunction last Thursday. Weir, whose rice allotment is 10 acres, contends planting restrictions are unconstitutional.

Officials were refused admittance to Weir's land when they attempted to measure his rice crop last spring.

Young said Weir's insistence that the measurements could be made by aerial photography was impractical and said the crop would not be damaged by the operation.

ences between them, with due regard for the principle of the United Nations charter, and continue negotiating until both they and the rest of the world achieve total disarmament and enduring peace."

Major League Stars

Hitting - Lee Thomas, Angels, tied major league record with nine hits in doubleheader - getting a double and four singles in five trips in the opener and slugging three home runs, one a grand slam, among four hits in the nightcap. Angels lost both games to A's, however, 7-3 and 13-12.
Pitching - Bob Purkey, Reds, struck out seven, walked but two and allowed six hits, after blanking Cards on three hits for eight innings, in 5-2 victory that retained Reds' two-game lead.

Major League Leaders

American League

Batting (based on 325 or more at bats) - Cash, Detroit, .361; Howard, New York, .359.
Runs - Mantle, New York, 118; Maris, New York, 112.

Strikeouts - Koufax, Los Angeles, 214; Williams, Los Angeles, 169.

Giants Should Have Stayed at Home

By ED WILKS
Associated Press Sports Writer

Curfew or no curfew, the Giants should stand in bed.
After getting the bed-check lifted for one night—following a reported \$1,950 fine spread over 13 players by Manager Al Dark for curfew violations—once hot San Francisco stumbled to a 10th defeat in 12 games Tuesday night as the Los Angeles Dodgers beat the Giants 4-2.

It was the sixth success in eight games for the second-place Dodgers, who stayed within two games of front-running Cincinnati in the National League race, after the Reds beat St. Louis 5-2.

Bob Hunter, Los Angeles Examiner baseball writer, reported that Dark socked 13 of his players, including three veterans with fines ranging from \$250 down to \$100. Hunter said Dark then lifted the curfew—normally two hours after a night game on the road—for one night after the Giants lost 4-0 at Los Angeles Monday.

Dark, a devout family man who neither drinks nor smokes, said the \$1,950 figure was excessive. He said the fines were slapped on 7 players, not 13, and that it happened 10 days ago in St. Louis.

That's when the Giants, after winning six straight and recalling memories of their little miracle of 1951, had lost three in a row at St. Louis. That dropped them 6 1/2 games behind.

Then they were third. Now they're fourth, eight games behind Cincinnati.

Milwaukee clung to third, two games ahead of the Giants, by beating Philadelphia 5-4 in 14 innings. Pittsburgh defeated the Chicago Cubs 8-3.

Thomas, 25, was 5-for-5, with a double and four singles in the first game for the Angels. He ran his consecutive hit streak through seven, with a single and home run, before striking out in the fifth inning of the nightcap. He had eight RBI in the second game. He brought the Angels a 9-9 tie with his sixth-inning slam, and put them ahead with a three-run homer in the eighth.

The A's won that second game on Bobby Del Greco's two-run homer in the ninth off Ken McBride (12-12). A five-run second inning, in which Jerry Lumpe, another ex-Yank hit a three-run homer, wrapped up the opener against Ryne Duren (6-12). Jerry Walker (7-11) and Bob Shaw (10-12) were the winners.

Mantle, after missing two games because of an arm injury, gave the Yanks a 1-1 tie with his second-inning home run off loser Joe McClain (8-16). Elston Howard's 16th homer, in the fifth inning, broke it up and the Yankees then added four more runs, two unearned, in the seventh for their sixth straight success. Right hander Jim Coates (10-5) checked the Senators on four hits as they lost their sixth in a row and 20th of 21.

Mantle stayed even with Babe Ruth's record-60 pace of 1927. Teammate Roger Maris, the major league leader with 53 home runs, was 0-for-4 and now is only four games ahead of Ruth's pace. Maris hasn't had a hit in 15 at bats.

The Orioles wrapped up the carry-over game from Labor Day with just a half-inning of work, then bopped the Tigers again behind the three-hit pitching of Chuck Estrada (12-8) and Steve Barber. Estrada struck out 11, but needed Barber for the final out when Rocky Colavito singled and went to second on an error in the ninth. Barber nailed it by getting Norm Cash on a grounder to first.

Southpaw Don Mossi (14-5) was the loser, dropping his second successive 1-0 decision when Brooks Robinson doubled in the

Ken Boyer and doubles by Charlie James and pinch hitter Carl Sawatski.

Milwaukee came from behind with a pair of two-run innings, blew the lead when the Phils squeezed across a run on a bunt by Bob Malkus in the ninth and then beat reliever Frank Sullivan (3-15) in the 14th when pinch hitter Joe Torre tagged a sacrifice fly after singles by Frank Bolling and Sammy White. Lew Burdette (16-9) was the winner.

Strikeouts - Pascual, Minnesota, 182; Ford, New York, 177.

Runs - Mays, San Francisco, 110; Robinson, Cincinnati, 108.

Runs batted in - Cepeda, San Francisco, 120; Robinson, Cincinnati, 115.

Hits - Pinson, Cincinnati, 188; Clemente, Pittsburgh, 185.

Doubles - Aaron, Milwaukee 35; Pinson, Cincinnati, 30.

Triples - Altman, Chicago, 12; Wills, Los Angeles and Clemente, Pittsburgh, 10.

Home runs - Cepeda, San Francisco, 37; Robinson, Cincinnati, 35.

Stolen bases - Wills, Los Angeles, 30; Pinson and Robinson, Cincinnati, 20.

Pitching (based on 12 or more decisions) - Podres, Los Angeles, 18-4, .818; Miller, San Francisco, 10-3, .769.

Strikeouts - Koufax, Los Angeles, 214; Williams, Los Angeles, 169.

Angels' Thomas Gets 9 Hits in Doubleheader

By ED WILKS
Associated Press Sports Writer

Mickey Mantle hit his 51st home run as the New York Yankees beat Washington 6-1 for a 7 1/2-bulge in the American League race Tuesday night, but ex-Yankee Lee Thomas stole some of the headlines by tying a major league record with nine hits in a doubleheader for the Los Angeles Angels.

Despite the rookie outfielder's performance—three home runs, one a grand slam; a double, and five singles—the Angels lost the two-night pair at Kansas City, 7-3 and 13-12.

Baltimore took two from second place Detroit, wrapping up a 4-1 decision in the completion of Monday's suspended game, then handing the Tigers their sixth straight defeat, 1-0, in a regularly scheduled game. Chicago and Minnesota played a 3-3 tie in a game called because of fog after nine innings, and Cleveland beat Boston 9-5.

In the National League, Cincinnati won 5-2 at St. Louis and retained a two-game lead over the Los Angeles Dodgers, who beat San Francisco 4-2. Milwaukee defeated Philadelphia 5-4 in 14 innings, and Pittsburgh thumped the Chicago Cubs 8-3.

Thomas, 25, was 5-for-5, with a double and four singles in the first game for the Angels. He ran his consecutive hit streak through seven, with a single and home run, before striking out in the fifth inning of the nightcap. He had eight RBI in the second game. He brought the Angels a 9-9 tie with his sixth-inning slam, and put them ahead with a three-run homer in the eighth.

The A's won that second game on Bobby Del Greco's two-run homer in the ninth off Ken McBride (12-12). A five-run second inning, in which Jerry Lumpe, another ex-Yank hit a three-run homer, wrapped up the opener against Ryne Duren (6-12). Jerry Walker (7-11) and Bob Shaw (10-12) were the winners.

Mantle, after missing two games because of an arm injury, gave the Yanks a 1-1 tie with his second-inning home run off loser Joe McClain (8-16). Elston Howard's 16th homer, in the fifth inning, broke it up and the Yankees then added four more runs, two unearned, in the seventh for their sixth straight success. Right hander Jim Coates (10-5) checked the Senators on four hits as they lost their sixth in a row and 20th of 21.

Mantle stayed even with Babe Ruth's record-60 pace of 1927. Teammate Roger Maris, the major league leader with 53 home runs, was 0-for-4 and now is only four games ahead of Ruth's pace. Maris hasn't had a hit in 15 at bats.

The Orioles wrapped up the carry-over game from Labor Day with just a half-inning of work, then bopped the Tigers again behind the three-hit pitching of Chuck Estrada (12-8) and Steve Barber. Estrada struck out 11, but needed Barber for the final out when Rocky Colavito singled and went to second on an error in the ninth. Barber nailed it by getting Norm Cash on a grounder to first.

Southpaw Don Mossi (14-5) was the loser, dropping his second successive 1-0 decision when Brooks Robinson doubled in the

Ken Boyer and doubles by Charlie James and pinch hitter Carl Sawatski.

Pine Bluff Is Favored Over the Bobcats

By WICK TEMPLE
Associated Press Staff Writer

All but two of Arkansas' Big Nine Conference high school football teams are favored in Friday's opening night games. The outstanding matches are Smackover at El Dorado and Benton at Little Rock Central.

Smackover may be the Region 4A standardbearer and El Dorado rates a darkhorse role in the Big Nine race. Central, defending champion which went 12-0 last year, has lost quite a bit of talent and Benton will be ready.

No conference games are scheduled this week in the Big Nine and very few in Class AA. Three conference affairs are carded in 2AA, with the big one Stuttgart and West Memphis.

Camden and Camden Fairview, two of the top teams in 4AA, play their annual grudge bout.

The only Big Nine teams that are not favored are Texarkana, which tied Crossett 0-0 last week in an early opener and meets Crosstown Texarkana, Tex., this week, and North Little Rock, which plays Subiaco.

Here is the week's outlook: Little Rock Hall 26, Little Rock 12. The Warriors will just beat Central for the Big Nine leadership and Catholic isn't as strong as last year's AAA title team.

SUBIACO 12, North Little Rock 6. The Northsiders may win some games, but not this early. They lost everything on graduation day.

TEXARKANA, Tex., 20, Texarkana, Ark. 7. They say Wally Myers on the Texas side has his best team in years. And Bill Jurney of Arkansas is still building.

LITTLE ROCK CENTRAL 27, Benton 13. The Tigers will be experimenting and Benton will go all-out.

FORT SMITH 19, Van Buren 0. It means a lot to the Grizzlies.

PINE BLUFF 13, Hope 0. If the Zehras can jell a very young offense.

EL DORADO 28, Smackover 14. If El Dorado can contain Joe Black, the Buck fullback. And if Gary Elia passes.

BLITHEVILLE 13, Osceola 6. Blitheville's line will carry it.

HOT SPRINGS 12, Morrilton 0. A new feeling for the Trojans—to start a winner!

And here's a look around Class AA:

HARRISON 13, Berryville 0. Could be worse.

SPRINGDALE 6, Pryor, Okla. 0. For the first time in six years.

ROGERS 25, Siloam Springs 7. Siloam could make it close.

FAYETTEVILLE 33, Bentonville 6. Bulldogs start strong, to stay strong.

WYNNE 36, Newport 13. Wynne's the darkhorse in 2AA.

STUTTGART 19, West Memphis 7. But West Memphis has a game under its belt.

JONESBORO 33, Batesville 13. Batesville is a good Class A team, but Jonesboro is among the best in AA.

CONWAY 12, Forrest City 6. The home field edge.

HELENA 21, Paragould 0. But they'll miss Hatfield and Gray.

RUSSELLVILLE 18, Atkins 0. Just a warmup.

MALVERN 12, Magnolia 6. Bases on Malvern's 27-0 victory over Arkadelphia.

FAIRVIEW 13, Camden 7. Fairview better balanced.

CROSSETT 6, Monticello. Crossett played even with Big Nine Texarkana.

Fight Results

By THE ASSOCIATED PRESS
London — Dave Charnley, 137, England, defeated Len Matthews, Philadelphia, 136½, 10; Howard King, 202, Reno, Nev., defeated Dick Richardson, 206, England, 10.

Omaha Neb. — Chino Diad, 135, Puerto Rico, stopped Joey Parks, 136, Omaha, 10.

Chicago — Henry White, 147, Cincinnati, defeated Virgil Akins, 152, St. Louis, 10.

Legal Notice

COMMISSIONER'S SALE
NOTICE is hereby given that by virtue of a decree of the Hempstead Chancery Court entered on the 5th day of September, 1961, in a cause pending therein wherein Earl S. Carman, and others were plaintiffs and Leighton Jewel Carman, and others were defendants, the undersigned as Commissioner, appointed by said Court will on the 7th day of October, 1961 offer for sale at public outcry to the highest bidder at the Front door of the Court House in Hope, Arkansas, the following lands, to-wit:—
West half of the Southeast quarter of Section 16 Township 10 South, Range 23 West, said sale being made for the purpose of partition.

TERMS OF SALE:
Said Sale will be on a credit of three months and the purchaser will be required to give bond with approved personal security for the purchase money.

WITNESS my hand this 5th day of September 1961

Jamie Russell
Commissioner.

Sept. 6, 1961

Arkanson Wins Archery Crown

MEMPHIS (AP) — Robert Biltner of Pine Bluff, Ark., won the non-amateur men's target crown in the Southern Archery tournament.

The amateur title in Monday's tourney went to Joe Thornton, a Cherokee Indian from Tahlequah, Okla., who scored 2,482 points to beat runnerup Kenneth Mathers of Brevard, N.C., by 46 points.

Mrs. Carroll Green of St. Louis was the women's winner.

To Decide on Two All-Star Games

NEW YORK (AP) — Baseball Commissioner Ford Frick appointed a committee of four major league club owners Tuesday to meet with a players' committee concerning the players' request to continue playing two All-Star games.

The date and site of the meeting have not been determined, but it is expected to be around World Series time. Final decision will not be reached until the major league December meeting.

The club owners' committee is made up of Dan Topping of the New York Yankees, John Fetzer of the Detroit Tigers, John Galbreath of the Pittsburgh Pirates and Bob Carpenter of the Philadelphia Phillies.

Mantle Hits Out No. 51 in Yankee Win

By JOE REICHLER
Associated Press Sports Writer

NEW YORK (AP) — A heavier bat and a lighter swing are responsible for catapulting Mickey Mantle back in the home run race to Babe Ruth's celebrate 60.

The New York Yankees' No. 1 glamor boy—Roger Maris is still No. 2 despite his edge in homers—in a dramatic return to the lineup Tuesday night, hammered the first pitch served to him by Washington's Joe McClain for a tremendous home run. It was Mickey's 51st of the season, putting him even with Ruth's record pace of 1927.

Maris, the other half of the slugging twins, again went hitless and his homer total remained at 53. He is now only four games ahead of the Bambino's pace.

In three other times at bat Mickey flied deep to left, singled and drew his 11th walk of the season to help the Yankees defeat the Senators 6-1. The Yankees' sixth straight triumph, coupled with Detroit's 4-1 and 1-0 defeats in Baltimore, widened their first-place lead over the Tigers to 7½ games.

Although Maris leads by two

Hope Star SPORTS

homers, the guess here is that if Ruth's record is to be broken, Mantle will do it. Despite a pulled muscle of the left arm, suffered last Saturday, Mickey is as hot as the weather while Maris is as cold as an ice cube.

Tuesday night's homer was Mantle's fifth in his last six games, not including a ninth-inning appearance last Sunday. Maris has gone hitless in his last 15 times at bat. In his last 20 games, Maris is batting .137 although he has hit five home runs.

Mantle's appearance in the lineup was a surprise even to Ralph Houk, the Yankee manager.

"I didn't think he (Mantle) would play," said Houk. "The reports I received were that he'd be out for several days. I know his arm was real sore Monday. He couldn't swing a bat at all. That fellow sure heals quickly."

"Normally, I use a 33 or 34-ounce bat," Mantle said. "But after I hurt the arm, I found that the pain became more severe when I missed a swing. So last Sunday, I borrowed Bob Cerv's

36-ounce bat, the heaviest on the club. I was forced to swing easier because I couldn't get it around as quick."

Mantle smashed two home runs with Cerv's bat Sunday and decided to use it again. "I'm going to stick with Bob's bat until I stop hitting, even after the arm is fully healed."

Maris, oddly enough, was not overly depressed by his latest batting slump.

"That's Maris," he declared. "One week, I'm going great, the next week I'm horsefeathers."

Fishing Around Arkansas Lakes

LITTLE ROCK (AP) — Here is a fishing forecast from the Arkansas Game and Fish Commission:

Lake Bull Shoals: Bass good at night on jigs, eels and plastic worms. Crappie fair to good on minnows.

Lake Norfolk: Bass fair at night on worms. Bream and blue gill good white bass fair at night on minnows.

Lake Conway: Water clear and normal. Bass fair to good on artificial bait. Bream fair to good on crickets and worms.

Lakes Hamilton and Ouachita: Water conditions good. Black bass good early and late on artificial bait. Bream good on crickets and worms. Crappie fair to good on live minnows.

Lake Catherine: Water clear and normal. Bass fair on artificial

bait. Bream fair on worms. Crappie poor.

Lake Maumelle: Water clear and normal. Bass fair to good early and late on artificial bait and worms. Bream good on crickets and red worms. Crappie good on minnows.

Lake Greason: No report.

The Columbia River and its tributaries drain 250,000 square miles.

Lions Trade a Veteran Lineman

DETROIT (AP) — The Detroit Lions Tuesday traded end Steve Junker to the Washington Redskins for fullback John Olszewski, a nine-year National Football League veteran.

The Lions also asked waivers on halfback Kenny Webb.

Cummings Won't Talk About Show

By CYNTHIA LOWRY
AP TV-Radio Writer

HOLLYWOOD (AP) — "Robert Cummings would rather talk about food supplements, aviation and positive thinking than about his new show," said a member of the Hollywood corps of correspondents. "No matter what you ask him, he'll slide over to his pet subjects somehow."

A few days later, Cummings finished a comedy scene in an episode of "The Bob Cummings Show." Then he walked over and talk with me as the crew set up for the next shot.

"One of the problems of creating a character is that often you don't really know who he is," he began. "When I did 'My Hero' in 1952 I never really knew the character I played, Bean Blossom. Maybe that was the trouble. He was just there, without any background—no home, no family. But this time, I sat down and wrote a long biography for Bob Carson, the fellow I play. He started out as a lawnmower expert who could fix those engines and went on to become a general engine expert. In the war he was a member of the Flying Tigers, was shot down and landed in an

Profits Rise to Top of News Today

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — Profits—how big they should be, how they should be divided, their relation to prices and to wages—are rising to the top of the day's news. The auto and steel industries are in the forefront, but all companies are involved by implication. And the argument may get angry.

That's because almost everyone has his own idea about profits. Labor thinks profits shouldn't rise unless wages do too, and first. And if profits do rise, more and more unions are wanting to share in them.

Management thinks profits should rise from present generally low margins in relation to sales. It says it needs higher profits to finance greater business activity it sees just ahead. Stockholders agree, only they mostly want higher profits to mean bigger dividends.

The consumer looks on rising profits with a questioning eye, often wondering if the increase means that he paid too high a price for the company's products. And the government ever so often takes a stand on profits, by indirect means. The stand changes from time to time, now seeming to favor labor's view that rising wages needn't hamstring management, now seeming to favor management's view that higher wages would mean profits would disappear altogether. And sometimes the government backs the consumer, whose eye is on what higher wages or higher profits mean in terms of prices.

At the moment government spokesmen are coming out against higher prices, although many in the steel industry, for one example, say increases are necessary to protect profits when labor costs rise next month.

The government has another stake in profits. If they rise, that means a greater return for the Treasury from corporate income tax collections. And the Treasury will need higher receipts in the months ahead as government spending increases.

Corporate profits before taxes, according to the Department of Commerce, came to \$43.1 billion in 1955, and to \$45.1 billion last

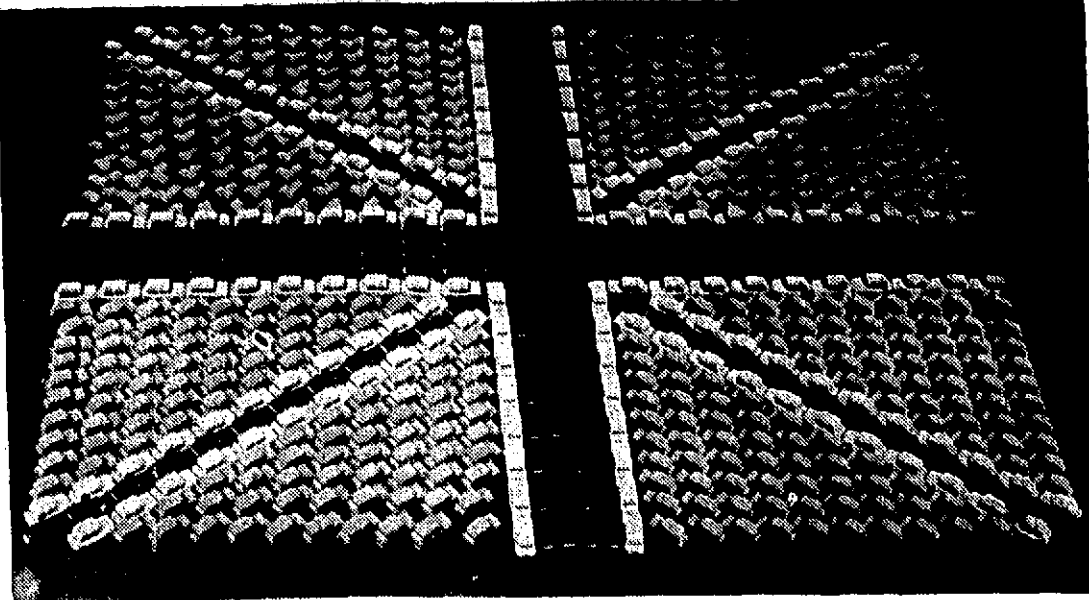

Indian village. "One of the older tribesmen said that the Indians were on his side in the war and because of that, they were going to give him the wisdom of the ages that knew no race, creed or national boundary."

"You can be anything you want in the universe by acting as if you already are, as if you had already accomplished it," the older statesman told him. "But you must also do three things: tell no one, be sure you want it, and always give thanks for it."

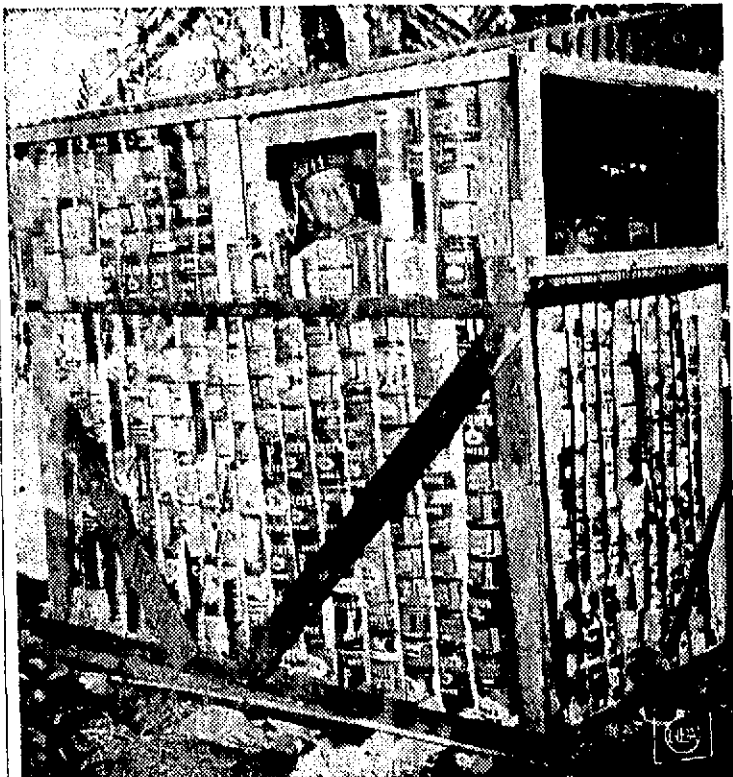

"So when our series opens, Bob is a positive thinking man who owns seven airplanes, has plenty of money and spends his time doing what he wants to do—flying around as an adventures trouble-shooter."

Cummings paused. A man walked up to him with a box and something resembling a capsule. "Food supplements," said the man in his fifties. "They are really in his fifties. They are very important. You are what you eat. As an actor the one tool I have is my body. It has to be kept in shape because I must be ready to deliver it in perfect condition when it is needed. And to do that I have to know foods and nutrition. It is the food you don't get that hurts you."

The new series is based on Cummings' own idea, and incorporates his enthusiasm for flying with comedy and adventure. The show also contains some private Cummings' fun. The hero's name, Bob Carson, is that of Cummings' best friend.

MOBILE UNION JACK—Almost 800 cars form a giant Union Jack along the banks of the Thames near Oxford, England. They were driven to this location, parked two inches apart to create the red, white and blue banner. British Motor Corp. produced the cars worth \$1.2 million.

CAN IT BE TRUE?—Believe it or not, this is not only a house built of tin cans, but also a weight-losing project. Pedro Cherie, 58, of Sunnyvale, Calif., built this one-room building from 750 cans while recuperating from a heart attack to keep himself busy and lose weight.

Finally Can Sit Through His Movie

By JAMES BACON
AP Movie-TV Writer

HOLLYWOOD (AP) — Laurence Harvey says he has finally seen a movie of his that he was able to sit through from beginning to end.

The movie is "Summer and Smoke," co-starring the Broadway star Geraldine Page. Once again Harvey plays an angry Southerner in Tennessee Williams' psychotic jungle.

"Every movie I've ever made, and that includes 'Room at the Top,' sent me out to the neighborhood pub before the ending."

Harvey, who never jedges on any question—except possible marriage to Joan Cohn, widow of the Columbia studio boss — says Hollywood has to many producers and not enough picture makers.

"Hal Wallis (producer of Sum-

mer and Smoke) is a picture maker."

He served as president of The Associated Press Managing Editors Association in 1938.

Oklahoma Newsman Succumbs

OKLAHOMA CITY, Okla. (AP) — Walter M. Harrison, for 30 years managing editor of Oklahoma City's two daily newspapers, died today.

Harrison, 73, had entered Mercy Hospital here recently for a physical checkup.

Harrison left the Oklahoma Publishing Co., publisher of the Daily Oklahoman and Oklahoma City Times, in 1946. In recent years, he published the North Star, a suburban weekly newspaper here; and served on the City Council.

Harrison was born Aug. 16, 1888, in Irvington, Ky. He came to Oklahoma City in 1916 after having worked for newspapers in Wayne, Neb.; Sioux City and Des Moines, Iowa; San Francisco, Calif.; Winnipeg, Canada, and Minneapolis, Minn. He was a graduate of Iowa State College at Ames.

Harrison was a former president of the American Society of

year. The five-year gain was 4.6 per cent. The low point was \$37.2 billion in 1953 and the high point \$46.4 billion in 1959.

While corporate profits were gaining by 4.6 per cent in the five years, total compensation of employees rose by 31.2 per cent, advancing each year. Employees got \$223.9 billion in 1955 and \$293.7 billion in 1959.

Those are the figures management cites when it protests that it must maintain or expand profits if it is to provide the new plant, machinery and jobs that the goals of economic growth demand.

Newspaper Editors and honorary president of Sigma Delta Chi.

He served as president of The Associated Press Managing Editors Association in 1938.

"Where Good Shoes Are Fitted Correctly"

MORE DARN TOURISTS
BY STEVE FRAZEE

THE STORY: Mrs. Belinda Snoddy sees a chance to increase her social prestige by acting as hostess to ten young women who are geology students at a swank eastern boarding school. The girls are coming to Wonderful to study rock formations.

Chapter XV

"Frankly, I had considered other motels," Mrs. Snoddy said, "but knowing that you were not enthusiastic about the Indian dances that the chamber is trying to foist on us, I came here."

"I appreciate that," Mrs. Snoddy gazed a bit "sporty-looking Finnegan."

Instantly, Glubman was off and running. "Him and his Indian dances. What good would something down in the park do us out here?"

"Indeed not," Mrs. Snoddy had found a kindred spirit.

"What would be worth a dozen chamber managers like him would be to have eight, ten cute girls in buckskin outfits right here where tourists can see them. You dress 'em up real catchy, so every car going by can see..."

Mrs. Snoddy listened and her interest grew. Plans began to form in her churning mind. What a perfectly novel idea. How well it could be done, with her in charge. After a time she broke into Glubman's discourse. "Think I can arrange that, Mr. Glubman."

"Huh?"

"The girls, the booth, historical information about the area. I'm well qualified on that subject."

"Huh?"

Mrs. Snoddy tilted her head in deep thought. "Let me see now. The Buckskin Troupe. No, not quite right. The Deerskin Posse. Better, but still not quite it. The Frontier Hostesses. Oh, dear, not that. But I will think of something."

"You mean you like the idea?" Glubman asked, stunned to think that after all his talking he had found someone who agreed with him.

"The booth must have character, perhaps something in the form of an old-time dance hall or saloon. It must be located where it will do the maximum good."

"I own the ground just east of here for two hundred feet," Glubman said quickly.

"Splendid! The girls must be attractive, gentle, polite, tastefully attired but in such a manner that they will attract attention."

"Yeah!" Glubman said.

"I have some wonderful ideas about the whole project."

Glubman watched Mrs. Snoddy drive away, down the drive where the sign said Entrance Only. He didn't even get annoyed. Ten gorgeous dolls in buckskins, right beside the Escalante. Maybe you think that wouldn't stop 'em. And it was his idea, right from the start.

"Finnegan," he said into the

HIT FOR A HELICOPTER—A Marine helicopter from the USS Hermitage attracts crowds at the African city of Togoville. The visit was part of a "Solant Amity" (South Atlantic Amity) cruise. During the past year, the Hermitage, a landing ship dock, and four other Navy ships have touched at small and large ports along the coast of Africa, bringing emergency medical relief, food, friendship and entertainment to the people.

As your summer tan deepens, switch your lipstick shades. The wrong shade can ruin the effect of a golden tan.

U.S. Denies Tourist Was a Spy

WASHINGTON (AP)—A State Department spokesman today denied Marvin William Makinen is a U.S. spy, and protested the secret sentencing of Makinen on espionage charges in the Soviet Union.

The spokesman, press officer Joseph W. Reap, said the U.S. Embassy in Moscow has demanded that U.S. officials be allowed to see the young American who entered the Soviet Union as a tourist this summer.

Reap said the government has received no information officially from the Soviets other than the word Monday that Makinen, a Michigan native, had been seized July 27 on espionage charges.

The Soviet press said today

7 More Schools Are Integrated

RICHMOND, Va., (AP)—School integration in Virginia spread today to seven more localities where 28 Negroes entered formerly all-white schools.

Richmond, which already had integrated a junior high school, saw the race barrier fall at three additional schools, including the city's John Marshall High School. The city's four integrated schools now have 36 Negroes enrolled.

Police were out in force at the Richmond schools, but no incidents occurred.

Makinen had been sentenced to 8 years imprisonment.

A duplicate of the H. M. S. Bounty, built for a current movie, contains a nail from the original vessel.

Demos Will Try to Beat 15

WASHINGTON (AP)—The Democratic Senatorial Campaign Committee pledged today an all-out drive to beat the 15 Republican senators whose seats will be at stake in next year's elections.

Chairman Vance Hartke, D-Ind., announced the assignment of eight 1952 campaign teams, each headed by a campaign committee member and including other Democratic senators, to activate the campaign. Each team will operate in at least four states.

The seats of 21 Democratic senators also will be at stake in the election.

"All 15 Republican incumbents are prime targets of our committee," Hartke said in a statement.

Hartke said this is an early start for the Senatorial campaign machinery but he hopes it will pay dividends at the polls.

Sen. John L. McClellan, D-Ark., will be a member of a team assigned to work in Arkansas, Oklahoma, Maryland and New York.

The latter two states have Republican incumbents, whose seats will be at stake.

Sentenced in Airliner Incident

OROVILLE, Calif. (AP)—Bruce Britt, 40, of Smackover, Ark., was given maximum sentences today on three charges of attempted murder growing out of an attempt to hijack an airliner.

Superior Court Judge J. Frank Good sentenced the construction worker to 1 to 14 years in prison on each of the three counts, the terms to run consecutively.

The court again denied a defense plea to permit Britt to withdraw his guilty pleas and plead innocent by reason of insanity.

Britt told the court today he did not remember anything about the shooting and attempted stabbing during an attempt to hijack a Pacific Airways plane July 31 from Chico, Calif.

He said previously he wanted to fly to Smackover to visit his second wife, Melba, and their young son.

He was sentenced for shooting ticket agent William Hicks, trying to shoot J. Albert Hutchinson, a San Francisco attorney, and attacking co-pilot Alan Wheeler with a switchblade knife.

Still pending before the grand jury is a possible charge in connection with the shooting of pilot Oscar Cleal, who was blinded in one eye and is recuperating at his home in Menlo Park, Calif.

Cotton Grower Dies at Memphis

MEMPHIS, Tenn. (AP)—T. Frank (Swamp) Jackson Jr., a longtime leader in the cotton industry, died here Monday at 58 following a lengthy illness.

Jackson, president of the cotton firm of Wilson, Logan and Jackson, was president of the Memphis Cotton Shippers Association in 1944 and president of the Memphis Cotton Exchange in 1945.

television picture Saturday showed the storm definitely was a hurricane, he said.

Tiros, launched in early July, also helped out with the season's first storm, Abby. Dunn said the satellite should be of help during the next two weeks in spotting future storms. September is the big month for storms out of the tropical Atlantic.

House Passes Ft. Smith Bill

WASHINGTON (AP)—The House today passed and sent to the White House a bill to authorize a 15-acre Fort Smith, Ark., national historic site.

The bill would authorize use of \$319,000 to purchase about five acres. Fort Smith is to donate about 10 acres.

PLAYING BY EAR—Edward Hoffman of Great Neck, L.I., has found a way to teach four to play the piano at the same time without their playing bothering one another. His method is contained in an electronic piano keyboard, which through earphones, allows the teacher and student to hear what is being played but no one else.

The Greeks Thought of Everything

By ARTHUR EDSON

WASHINGTON (AP)—Those ancient and remarkable Greeks thought of everything.

They even had their own version of a Peace Corps.

Dr. John F. Latimer, professor of classics and associate dean of faculties at George Washington University, said today a somewhat similar idea was first thought of five centuries before Christ.

"And, my soul," Latimer said, "it worked."

None of these old Greeks ever went to Harvard, but they decided, just as President Kennedy was to decide 2,400 years later, that young men should perform an act of service for the public good.

Naturally, they had a word for it. They called this institution "Leitourgia," which means a public service, and a derivation of this word is still with us in "liturgy," a rite prescribed for public worship.

The Greeks thought service should mean that the young men would contribute not only their time and talents but also their money. This limited Leitourgia to the wealthy.

Nor did the Greeks have eager young ladies racing out to do their bit. With all their pioneer thinking—a misogynist might say possibly because of it—the Greeks

Youth Jailed After Shooting Into Store

WALNUT RIDGE, Ark. (AP)—Sheriff Kenneth Guthrie said today that a 21-year-old Lawrence County youth had been jailed after a shot was fired into a grocery at Imboden.

Guthrie identified the youth as Bobby Broadway of near Imboden. He said Broadway was docked on a charge of assault with a deadly weapon.

The sheriff said a shot from a .22-caliber rifle was fired from a parked automobile into Helen's Grocery late Monday. No one was hit. Julius Matthews and his wife, Helen, who operate the store, were the only ones there at the time.

Guthrie said no motive had been established.

had little room for women in their great plans.

Nor were the jobs to be done exclusively for peace.

Indeed, one chore was the exact opposite. A wealthy young man could equip a ship for war.

Or he could train competitors for the gymnasium contests.

Or, if artistically inclined, he could fix up a chorus for musical competitions for the great public festivals.

Or he could superintend the sacred embassies to the four great national festivals, or to Delos and the other holy places, an operation, Latimer believes, that closely parallels the spirit of the Peace Corps.

No Increase in Radioactivity

LITTLE ROCK (AP)—The state Health Department said today it has noticed no increase in radioactivity as a result of two nuclear tests by Russia.

The Health Department had quit testing for radioactive fallout, but resumed it last week when Russia announced its intention to renew nuclear tests.

Dr. J. T. Herron, state health officer, said it usually takes seven to 14 days for fallout to be distributed around the earth.

Charge French Kill 4 Workers

TUNIS (AP)—Tunisian authorities charged French troops killed four Tunisian workers and wounded about 40 others today in the barricaded seaport of Bizerte.

Bizerte's Gov. Hedi Mekaddem said the French opened fire when the workers began to remove barbed wire barriers set up by the French around his palace.

Shortly after the shooting, he said, French cordons, backed by tanks, closed all entrances to Bizerte.

An uneasy cease-fire ordered by the United Nations has been in effect since July 23 after four days of fighting in which hundreds of Tunisians were killed.

Thinks U. S. to Start Testing

WASHINGTON (AP)—A congressional source close to the

NLB Turns Down Union Request

WASHINGTON (AP)—The general counsel of the National Labor Relations Board today turned down the United Auto Workers request for quick action on UAW charges that General Motors has not bargained in good faith.

Counsel Stuart Rothman said in a statement that "hasty governmental action could have the detrimental effect of diverting attention from current bargaining negotiations and deprive the parties of due process under the law."

However, Rothman said his office takes "the most serious view of the charges" and is conducting an investigation. But he said the charges raise legal questions which could only be settled after months of litigation.

The UAW and General Motors are deadlocked in negotiations for a new contract, with a strike deadline coming up at 10 a.m. Wednesday.

On Aug. 24, UAW filed with NLRB a complaint saying GM was failing to bargain in good faith as required by law. The union said that although the company had contended the union's demands were inflationary it refused to provide the union with company figures on profits, prices and productivity. The company contended its prices and profits were not a proper subject for collective bargaining.

Comptroller May Pay for Movie

LITTLE ROCK (AP)—The state comptroller may examine and approve a \$10,000 payment which the Publicity and Parks Department wants to make toward cost of production of a movie about Arkansas the attorney general's office said today.

Comptroller L. A. Mashburn had asked if the initial payment of a total of \$20,000 the Parks Department had agreed to contribute was subject to his approval.

Mashburn was told he could examine the matter and approve payment if he finds it acceptable. The opinion said the state has no financial responsibility beyond the \$20,000 it agreed to provide toward the movie's total cost of \$80,000.

White House predicted today the United States soon will resume testing of atomic weapons.

The source declined to permit identification but said he would not be surprised if such an announcement was made late today by President Kennedy.

Resumption of U.S. tests has been urged by members of the Senate-House Atomic Energy Committee since Russia resumed its own tests.

OLD WORLD LOOK—Not Rome, but St. Louis, Mo., gains luster from glittering shafts of water. The Milles Fountain adds splendor to the Union Station, beneath tower clocks.

Mayor's Wife in Berlin Is Charming

By PHYLLIS BATTELLE

NEW YORK — I would like to go back to West Berlin now, to visit again with one of the most nordically lovely and enchantingly shy women in the world.

That would be Rut Brandt, wife of the tough, resolute Mayor Willy Brandt. A woman beautiful enough to rival Ingrid Bergman—yet quietly, carefully anonymous—“just a housewife”—remaining at home, doing her own baking, cooking, cleaning and caring for two sons—calmly confident that her husband, the family, and the City of West Berlin are safe.

At least, that's the way Mrs. Brandt felt nearly three years ago when, through angling and pleading through official channels and personal phone calls, I managed to obtain the first American newspaper interview with her.

It was a bright winter day when Rut (the Norwegian variation of Ruth) led the way into the Brandt's small rented one-half of a two-family house on “Marine-Steig” in the U.S. sector. The parlor, about 10 by 12 feet, was chilly, perhaps 60 degrees, and the slim blonde Mrs. Brandt hugged a black poodle to her breast—thinks of their half-house, which partly for warmth, I suspected, and partly for self-assurance dur-

ing this unaccustomed encounter with the press.

“I am so nervous,” she said. “I cannot speak any English. I can scarce remember my German.” She proceeded then, with a delightful multi-lingual confusion, to answer my questions in a combination of English, German and Norwegian.

“The situation in Berlin does not worry me personally,” but pressed through the interpreter. “It is just something we talk about. And it is something that makes my husband work too much—stay up till 3 or 4 a.m. every day—because he must think things through, and this is the time. They say now (this was December, 1958) that there is six months before a decision must be made, but this is wrong.

“Decisions must be made now. We cannot give up Berlin. So my husband must think.”

Rut met Willy in Stockholm in the early days of the war when they were both refugees: she from Norway, he from Germany. They also were both married, to other mates, at the time. Shortly afterward, Rut's husband died of tuberculosis contracted during a long escape march from Norway through the snow. Willy divorced his wife, and they were married in 1947.

During the Berlin airlift, they lived in a cold one-room flat. There was no coal. Now Rut black poodle to her breast—thinks of their half-house, which partly for warmth, I suspected, and partly for self-assurance dur-

spacious. She rarely goes to social events or political rallies.

“I am the housewife. I was always afraid to get into the light of the public. Besides, until they shall grow up, I shall like to stay with my children at home.”

As if on cue, the Brandt's two sons—Peter, then 11, and Lars, 7, romped in. They squeezed in beside her on the small sofa, and were quiet, munching occasionally on an American product called corn curls.

In the days before her marriage to Willy Brandt, Rut was a correspondent for a Scandinavian newspaper “Aktuell.”

But her husband, she said proudly, is the real writer. She stood up, spilling the poodle from her lap, and showed off a four-foot-long book shelf. It was lined with some three dozen books of biography and history signed “Willy Brandt.”

“His books is very dry,” she giggled. “I scarcely read them.”

The life of writing and fighting and politicking had kept Mayor Brandt so busy in recent months, Rut remarked wistfully, that their younger son Lars had told her, “I wish he could have a business, like other poppies.”

She smiled. “But I cannot mind, as long as he stays healthy. We see him seldom. But we know he helps keep Berlin safe in the crisis. We are not nervous.”

I can't help wondering, after 33 more months of constant crises, if the almost anonymous Rut

Moscow Tells People About Proposed Ban

By GEORGE SYVERTSEN

MOSCOW (AP)—A Moscow broadcast to the people Tuesday took a dim view of the Western proposal to the Soviet government for a ban on atmospheric nuclear tests.

Radio Moscow denounced the appeal of President Kennedy and British Prime Minister Harold Macmillan for elimination of tests in the earth's atmosphere as a maneuver to justify high-altitude and underground explosions.

The home service broadcast gave the people—still unimformed of Washington announcements reporting three Soviet test firings in central Asia—their first news of the appeal by the two Western leaders Sunday to Premier Khrushchev.

The radio broadcast a dispatch dated Geneva. It was in that Swiss city that Soviet Delegate Semyon K. Tsarukin, on Monday brushed aside Western charges of perfidy in the Big Three test ban talks. He indicated the Soviets would reject the bid to prevent further pollution of the air from radioactive fallout.

“The U.S. and British representatives,” the Soviet listeners were told, “made a widely advertised proposal to conclude an agreement on the discontinuance of experimental explosions in the atmosphere.”

“They admit thereby the possibility of carrying out explosions underground and at high altitude,” it said.

“This is not a new proposal. For a long time the governments of the Western powers have been trying to obtain the right to perfect their thermonuclear weapons by carrying out underground explosions.”

“Only universal and total disarmament, stressed the Soviet delegate, can solve the question of nuclear tests.”

Soviet papers were still pushing a campaign to justify the Soviet Union's decision to resume nuclear testing, announced last Wednesday, as a measure to counter militaristic moves in the West.

The press and radio published statements of support from other Communist nations and Communist groups in Western and neutral countries. There were letters from Soviet citizens bailing the decision as a necessary move to strengthen Soviet defense in the West Berlin crisis.

Brandt is still as calmly confident.

Piersall's Father Dies at 74

NEWTON, Mass. (AP)—John W. Piersall, 74, father of Jimmy Piersall, Cleveland Indians outfielder, died Tuesday, apparently of a heart attack, while visiting at his son's home.

The elder Piersall was a resident of Waterbury, Conn.

Fill Those Meters

BANGKOK, Thailand (AP)—The first time officers emptied Bangkok's new parking meters they found stones, sand, chewing gum wrappers, slugs and a few coins.

Ice Ration Cut

HONG KONG (AP)—The individual rice ration in Shanghai, biggest city in food short Red China, has been cut from 22 pounds to 18 pounds a month, press reports said.

Nick Cain Out to Ruin Gangsters

By CYNTHIA LOWRY
AP TV-Radio Writer

HOLLYWOOD (AP)—The NBC announcement of the premier of its new action series, “Cain's Hundred,” reads as follows: “Shattered when his fiancée is murdered by the underworld syndicate for which he works, lawyer Nicholas Cain sets out to destroy (the) mob chief—”

And, starting Sept. 19, off we'll go, following Nick Cain's career of vengeance—one of the oldest, time-tested plot devices in literary history.

Paul Monash, creator and producer of the series, deliberately created Cain in a familiar, classic mold, even providing his character with a name of Biblical significance.

“He's a Byronic hero,” explained the man who wrote the first episodes of “The Untouchables.” “Cain is the synthesis of the forces of good. And he is of course, completely unrealistic. Nobody could go around the country smashing one facet of organized crime per week.”

Cain may be a creature of fiction, but he has some close relatives, also fictitious, delighting the television viewers season after season.

Closest to him in spirit if not costume (Cain will be a busy dresser) is Paladin, the lone, grim-visaged, dark-suited avenger of CBS' perennial “Have Gun, Will Travel.” Then, of course, there's ABC's Eliot Ness of “The Untouchables” whose adventures have been largely fiction since, early in the series, he and his loyal band were credited with bringing in the notorious Barker gang.

Frank Pierson, producer of “Have Gun” traces the ancestry

of his Paladin (another symbolic name, meaning legendary hero) back to the Greeks of Homer's day, to Odysseus and Achilles.

The trick, of course, is to set the classic figure in interesting background. Paladin who rights wrongs in the old West; Ness, in the Chicago of the Prohibition Era. Cain will tackle 1961-62 soft spots.

Monash, while following a popular path in this season's action shows, is making no excuses for his series.

“We're just trying to do shows that I would enjoy watching,” he said. “That means strong dramas with a great deal of sentiment—melodramas with heart—whose practical purpose is entertainment for the viewing public. Personally, I think most TV documentaries are pretty boring.”

Arkansas has 23 colleges and the University of Arkansas, with all but two offering degrees of varying kinds.
